EvictionRecords Introduces Landlord Tenant Screening Account Benefits

EvictionRecords.com has launched three new [account levels](#) for its clients in order to provide unique customer service to each type of business who needs landlord tenant screening and renter tenant screening. The accounts range from a basic account for the average client to high volume accounts for clients who place bulk orders on a regular basis.

Recognizing that every client has unique needs and wants when it comes to landlord tenant screening, EvictionRecords.com has developed three new account levels to best service its various clients. These account levels are designed to provide clients with the type of service that they need and the payment options that best fit their budgets. Included in these accounts are options for discounts when it comes to placing high volume orders as well as monthly payment plans for clients who utilize these services on a regular basis.

The normal membership account allows the client who might require [renter tenant screening](#) every once in a while to quickly place an order for their screening without tedious data entry. There is no set up required for the normal membership account, and clients will pay for their services when they place an order.

However, the plus account allows repeat customers who utilize EvictionRecords.com on a monthly basis to set up an account that gives them monthly billing options. In addition to enjoying the benefits of quick ordering and secure payments, the plus accounts also receive extra storage space in their accounts and additional [landlord resources](#). This system utilizes electronic invoicing, and customers are able to pay their balances via check or credit card. These clients are billed once per month for any orders that were placed during that month.

In addition to these two account types, EvictionRecords.com now offers high volume accounts for clients who place large batch orders. These clients receive the same great service and quick results from EvictionRecords.com when it comes to their landlord tenant [screening services](#); however they receive discounts for placing a bulk order. These discounts are determined based on the search type and quantity chosen. Each high volume client works with a personal account representative. Clients who are interested in this type of account can set up a free consultation appointment with EvictionRecords.com to determine their pricing.
