EvictionsRecords.com Lowers Its Criminal Search Pricing Once Again

At EvictionRecords.com, we have always prided our commitment to customer service and our commitment to quality. Keeping in mind our promise to keep our services affordable while still providing accurate results, we have decided to once again lower the pricing of our popular 3-state [criminal search](#). This tenant screening check used to be \$44.95 and can now be purchased for only \$39.90.

The 3-state criminal searches by far our most popular criminal background check service because many future tenants have lived in more than one state therefore it is a good idea for landlords to do an [eviction search](#) in multiple states. When customers choose this tenant screening check option, they are able to choose three different states. We offer instant eviction search results in every state and we offer instant criminal search results for 46 states.

It is not very often that customers are able to do a multi-state criminal background search for this low of a cost. A criminal record search is a worthwhile investment for any landlord, and EvictionRecords.com is committed to keeping these [tenant screening services](#) affordable for those who need them. The best part is customers get to enjoy the lower prices while at the same time knowing the level of customer service has not been compromised. We at EvictionRecords.com are more committed than ever before to our customer service policies, and making sure our customers have a professional experience is our priority. We want our clients to get the accurate information that they need as quickly and easily as possible.

For more information, please read our [Press Release](#) about lower 3-state criminal search pricing.
